## Watertight Outdoor Distribution Board

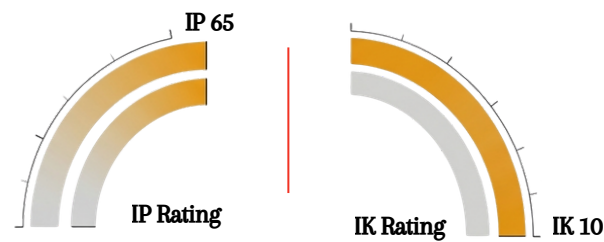

With DIN Rail - Blank and Transparent Door

### Product Description

Qehribar Watertight Distribution Boards with DIN Rail are wall-mounted outdoor modular distribution enclosures developed for low-voltage installations requiring direct DIN-rail mounting inside an IP65 weatherproof housing. The range combines ABS / PC / metal construction, blank or transparent door options, up to IK10 impact resistance, UV-resistant outdoor suitability, and a working temperature range of -25°C to +60°C. With capacities from 1x8 to 4x25 DIN modules, the series is suited to outdoor modular assemblies ranging from compact local distribution points to larger branch-distribution boards.

### Application / Use

Designed for outdoor wall-mounted LV modular distribution, especially where circuit breakers and other DIN-format devices must be installed directly on integrated rails inside a watertight enclosure.

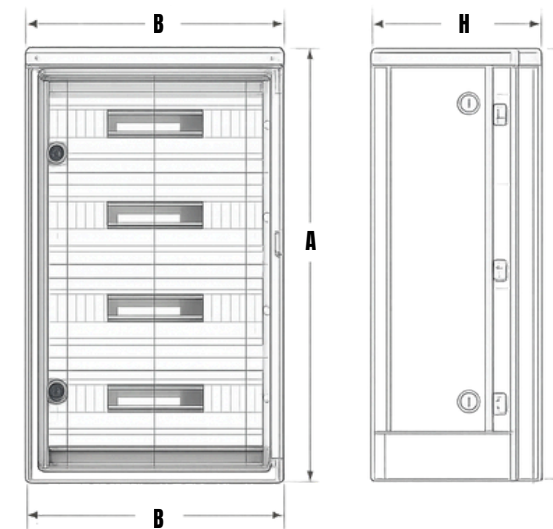

### Features

- Integrated DIN rail
- IP65 protection
- Up to IK10 impact resistance
- Blank or transparent door
- UV-resistant outdoor construction
- 1x8 to 4x25 DIN-module capacities
- Wall-mounted configuration
- Operating temperature: -25°C to +60°

### Available Range

Product	Surface Mounted ABS
Material	ABS / PC / Metal
IP Rating	IP 65
IK Rating	Up to IK 10
Installation	Wall Mounted
Operational Temperature	-25°C to +60°C
Cover Option	Blank and Transparent
