JUNCTION BOX

Flush Mounted ABS Junction Box

Opaque Cover - Blank Cable Entry

Product Description

Qehribar Flush Mounted ABS Junction Boxes with blank cable entry are engineered for concealed in-wall junction and branch connections in LV and ELV installations. Their recessed installation format supports a clean finished wall appearance while providing an enclosed space for fixed wiring interconnections behind the surface line. The blank-entry configuration allows the installer to determine cable or conduit entry locations according to project-specific routing requirements. The range is manufactured from ABS and specified with IP40 protection, impact resistance up to IK08, halogen-free construction, UL94 V-0 flammability classification, and an operating temperature range of -25°C to +60°C.

Application / Use

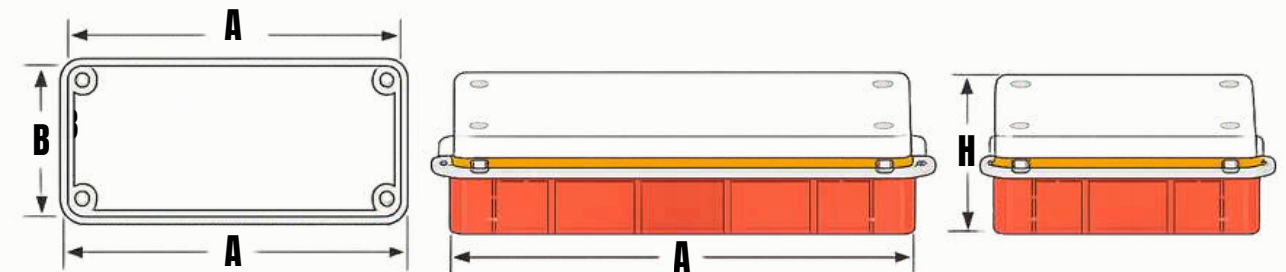

Designed for concealed junctions, branch points, and interconnection spaces inside masonry or partition walls in dry indoor electrical installations, particularly where fixed wiring must be connected within a recessed enclosure and surface projection should be minimized.

Features

- Flush-mounted ABS body
- Blank cable entry for custom routing
- Opaque screw-fixed cover
- IP40 protection
- Up to IK08 impact resistance
- Halogen-free, UL94 V-0 construction
- Operating temperature: -25°C to +60°C

Available Range

Product	Flush Mounted ABS
Material	ABS
IP Rating	IP 40
IK Rating	Up to IK 08
Cable Entry	Blank
Installation	Flush Mounted
Operational Temperature	-25°C to +60°C
Cover Type	Opaque
Cover Fixing	Screw

Model Selection

Item Code	Material	Dimension mm	IP Rating	Cable Entry	Cover
QPJ-00002U-000	ABS	85x85x45	IP40	Blank	Opaque
