Flush Mounted Metallic Enclosure

White and Smoked Transparent

Product Description

Qehribar Flush Mounted Metallic Enclosures are recessed modular sheet-steel enclosures developed for indoor low-voltage distribution and auxiliary control assemblies. Manufactured from powder-coated metal sheet and configured to the DIN 40 mm modular standard, the range is available in 2x18, 3x18, and 4x18 module versions for built-in wall installation. The series is specified with IP40 protection, up to IK10 impact resistance, and white or smoked transparent front-cover options, making it suitable for modular device assemblies requiring a mechanically robust recessed metallic housing.

Application / Use

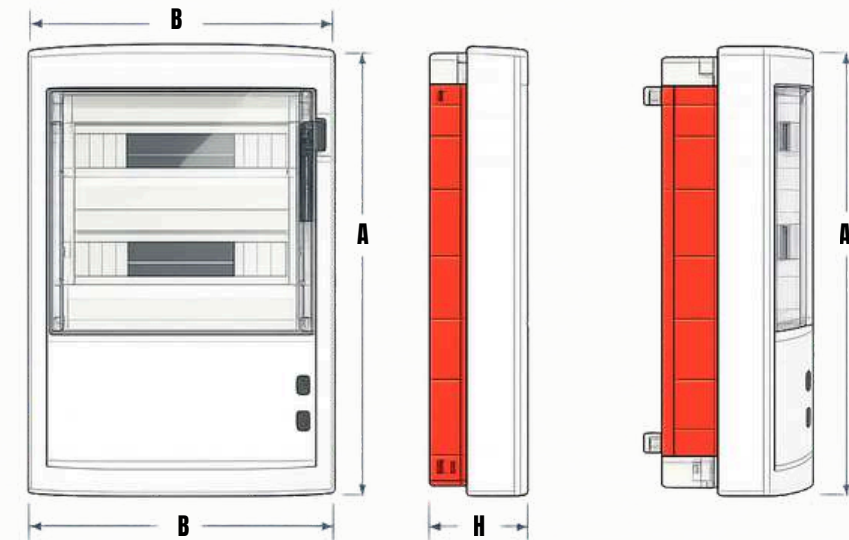

Designed for flush-mounted final distribution boards and modular control-device enclosures in protected indoor environments, including residential and commercial sub-distribution points and indoor industrial auxiliary distribution locations based on DIN modular components.
